

America's Premier Creeping Red Fescue

- Superior dark green color and fine leaf blade make it an excellent turf type grass
- Shade tolerant and has a soft texture combined with low growing characteristics
- Excellent winter survival and greens up quickly in the spring
- Excellent choice for mixtures
- Compliments other species of grass used in fine turf grass mixtures

Average Scores in Regional Trials 1990 NTEP Tests

| | Illinois | Kentucky | Michigan | Ohio | Oregon | Nat'l Avg | Rank |
|-----------------|------------|------------|------------|------------|------------|------------|----------|
