

DISSOLVE®

Premium Broadleaf Herbicide

(Active Chemical in 26-03-04 Weed & Feed)

<u>DISSOLVE FEATURE</u>	<u>WHAT THIS MEANS</u>
<ul style="list-style-type: none">• Combination of 3 Active Ingredients 2,4-D, Mecoprop and Dichlorprop	<ul style="list-style-type: none">• Very broad spectrum control• Uses the strengths of 3 active ingredients to maximize weed killing effectiveness• Works on difficult to control weeds
<ul style="list-style-type: none">• Little to No Soil Activity	<ul style="list-style-type: none">• Can be used around shallow rooted ornamentals and trees with a limited lower risk of injury (DO NOT apply to exposed roots)• Will not leach in to groundwater supplies• Has no long term soil persistence to affect future plantings or the environment
<ul style="list-style-type: none">• Highly Concentrated Manufacturing Concentrate Used for Making End-Use Products	<ul style="list-style-type: none">• Very little additional moisture being added to the fertilizer• No sticking agents required in production• Finished product retains original flowability• Dissolve lightly coats only the outer surface of the fertilizer, making it readily available to the weeds for controlling them• Dissolve stays put on the fertilizer until it is applied to the turf for weed control
<ul style="list-style-type: none">• Dissolve is Very Moisture Hungry	<ul style="list-style-type: none">• Dissolve is attracted to (and looks for) higher levels of moisture, such as damp weed surfaces.• Dissolve moves to the higher moisture levels of the damp turf (controlled release to the target side)

DISSOLVE®

Dissolve is a highly active, selective broadleaf weed control herbicide that has been university tested and proven to provide superior weed control of over 140 weeds.
