

Futerra®

- Offers the highest cover factor (.012) which minimizes soil and seed washouts, especially on hills and slopes
- Unparalleled in performance, ease, cost of installation and aesthetic appeal
- From construction projects to residential lawn and golf courses the reliability for growing grass is unsurpassed
- Bonds to the soil surface to prevent under blanket washouts and migration
- Rapidly absorbs water and holds it in place for enhanced germination
- Each Roll is 82" X 135'

Proven Results

Before.

After just 3 weeks.
