

LAWN STARTER MULCH™

Overview

No more messy straw!

ENCAP's® starter mulches are weed free and biodegradable. They prevent soil erosion, resist soil crusting, increase water retention, encourage larger plant root systems, and flow easily through any spreader or hydro-seeder.

With the combination of AST® and SPARKLE™, ENCAP® has the **best mulch for seeding new lawns for any small or large spot repair**. Never before could you do so much with so little product.

Combine ENCAP® mulches with any grass seed for the perfect lawn solution.

The ENCAP's® *Lawn Starter Mulch™* 50-pound bag is the perfect solution for new lawn establishment.

The *Lawn Starter Mulch™* features both AST® and SPARKLE™ technology. *Lawn Starter Mulch™* can be used with a hydro seeder, covering 2500 sq ft per bag.

Competitive Products

Other mulch products work above the soil by covering the seed. We work above and below the surface for all the seed and soil needs.

Positioning

Best placed near grass seed items or in a separate pallet display
