

# Terra-Mulch™

## Cellulose Fiber Mix

- Exclusive defibration process and new manufacturing process improve water holding capacity by 22%
- Less percentage of fines greatly reduces mace effect
- High-quality, clean 100% cellulose fiber mixes in water at an accelerated rate and stays in suspension for more uniform consistency
- Provides erosion control that is superior to straw for nearly the same cost—ideal for general seeding
- Shoots great, allowing hydraulic machinery to run efficiently while providing excellent ground coverage
